FOOT TROUBLES RELIEVED.

FOOT TROUBLES RELIEVED.

A MAN WHOSE EVERY STEP brings a twinge of pain is a cripple. Heumatism and gout, wrongly, receive most of the bame for this pain in the feet. Rheumatism is still a puzzle, both to the lady and to the medical profession. Kneumatism of the feet is commonly located in the ankle joint. But the cause of distress is, in 90 per cent. of cases, flat foot. The trouble begins with a stinging pain in the arch of the foot; then it is felt in the heat, "Policeman's heel," and also at the hall of the foot. The snort ligaments, connecting the heel-bone with the bones at the ball of the foot, become consensually and the pain becomes intense. The only permanent relief that can be obtained is by the use of an instep supporter. This holds up the arch, and relieves the painful strain upon the numerous ligaments and thembranes that hold them together. W. E. DREW & CO., Orthopedic Cordwainers, 716 East Main Street.
